New York Stock Market

New York, July 1.—Although the stock market was subjected to further depressing influences to day it maintained a fair degree of steadiness. The drift was downward, but the movement was so slight as to be insignificant. Union Pacific was the only speculative stock which, at its low price of the day, showed a loss of as much as a point. Burepean markets again were disturbed by the trouble in the Balkin situation, and stocks here received the first downward impulse from the lower quotations sent from London. Fears were expressed of renewed European liquidation, but only a few thousand shares were disposed of here to-day for foreign accounts. Traders received fresh encouragement from the engagement of \$2,000,000 more gold for export to Paris and from the news that negotations between the trainment and managers of Eastern roads to settle the wage question had been interrupted. Some success attended efforts to depress the market, but hear pressure induced enormous general selling, and when attempts to cover were made prices moved upward as readily as they had previously eased off. There was no heavy trading, and the day's movements consisted of slow fluctuations back and forth within a narrow range, with a heavy undertone. Great Northern Ore, Westinghouse Electric and American Telephone, which were the weak features of yesterday's trading, recovered part of their losses to-day.

The lack of demand for stocks was the more noticeable by reason of the fact that a considerable volume of investment buying is looked for at this season following heavy July interest and dividend payments. The July reinvestment demand thus far has been unusually light compared to other years. In the bond market there also was apparent lack of demand. New York City bonds were in increased supply, and a number of other bonds were seeking a market with sellers willing to accept concessions.

Givernment bonds exhibited further heaviness. The 2s, which recently broke below par for the first time, sold to-day at the recent bid price of 95 a declin

New York, July 8.—Money on call steady, 2024 per cent; last loan, 24; closing bid, 2; effered at 24. Time loans irregular, sixty days, 24,63; ninety days, 45,44; six months, 54,66. Prime mercantile paper, 6 per cent. Sterling exchange steady, with actual business, in bankers, bills at \$4,827 for sixty day bills and at \$4,865 for demand. Commercial bills, \$4,824. Bar silver, 584, Mexican dollars, 48. Government bonds heavy, railroad bonds irregular.

features that developed. Chief among these were the weekly weather reports, which noted droughty conditions still prevailing in a few important sections of the cotton rea few important sections of the cotton regrom.

The opening was steady, at one point
advance to two points decline. Cables were
coloriess, and the market fell off a little
on the favorable weather returns from the
beit. At the lowest in the early trading
prices were two to five points under yesterday's close. This was the low of the day.
The market did little until it clock, when
the weekly weather report was posted. They
stimulated buying for both accounts to a
moderate degree, and put the list two to
seven points over yesterday's last quotations. The market dragged in the aftermoon closing at a ne, advance of two to
four points on the trading months.

Senator Smith Has Plan to Save VIRGINIAN MAY

western Cotton States invading the Atlantic Coast States, are being drafted by Senator Smith, of South Carolina. Secretary Houston, of the Department of Agriculture, is said to have given Affairs. the proposition his tentative approval. Senator Smith's plan is for the Fed eral government, with State co-operaton in a belt which would separate the Atlantic Coast States from the South-western States. As the boll weevil

of dollars annually.

According to investigation already made, the narrowest belt where a bar-rier might be raised would be in Alaparing to urge upon the Senate that this narrow belt will be a practical barrier if immediate action is taken. In effect, it would protect most of Alabama, all of Georgia, Florida, South and North Carolina from the weevil.

The barrier to be effective must be

ing out yellow fever in Louisiana, and in establishing forest reserves for the conservation of resources, in order to have precedents for his plan. Senator Smith to-day consulted Sena-

JISTOCK MARKET IS STEADY AND DULL

Securities List Had Been Prepared for Such Happenings as That at Pittsburgh.

BY BROADAN WALL, BY BROADAN WALL,

New York, July 8.—The two features of today's stock market were its steadiness when
it might have been expected to be weak
and the intense duliness prevailing, particularly this afternoon. Explanation for the
former quality may be found in the long
period of liquidation which had prepared the
stock list for just such occurrences as took
place in Pittsburgh yesterday. The reason
for the duliness is obvious, considering the
season of the year and the important announcements regarding growing crops and
trade statistics to be made in the next two
days.

trade statistics to be made in the next two days.

The market appeared to reflect the feeling that the situation had been a good deal relieved by the developments of the last twenty-four hours, so far as the banking situation was concerned. There was nothing in the day's news to affect prices other than the announcement that \$2,000,000 more gold had been taken for Paris, making \$5,000,000 engaged for that market so far this week. This development had no influence whatever upon money market conditions so far as quoted rates for call or time loans were concerned. There was a fairly broad demand for time money especially from corporations, but offerings by the banks were not in the least affected by the French inquiry for our metal.

least affected by the French inquiry for our metal.

The private crop reports continued to show a very satisfactory state, and again furnished the chief buil argument of the day. In fact, were it not for the probabolity of bumper crops in the fall, it is probable that the stock market would go much lower than it is now. As it is, the private reports are good, and the prospects of a favorable government report later in the week are being used to hold the market whenever signs of rapid decline show.

As to the particular stocks in to-day's market, Union Pacific attracted most of the speculative attention. It led the decline in the morning with a loss of approximately a full point, but recovered some of this later. Reading was weak in the early trading, and then became firmer, while other leading railroads acted in similar manner. Southern facific was noticeably firm during most of the session. Steel and the Copper shares were heavy until the early afternoon when the former recovered most of the morning's loss, but the Copper stocks remained heavy, in the late afternoon there was a slight recovery all around the room, but trading was on a very small scale.

Affairs.

may become a member of the important House lobby investigation committee, which will be appointed by Speaker Clark within the next few days. Current gossip here to-day is Current gossip here to-day is that either Representative Carlin, of Alexandria, a member of the Judiciary Committee, or Representative Hay may be assigned to this committee by the Speaker

There will be seven members of this committee, four from the Democratic side, two from the Republicans, and one from the Progressives, according bama between the mountains near the Tennessee line and the Gulf. This would be a distance of about 150 miles. the boll weevil already has swept over Texas, Oklahoma, Louisiana, Arkansas, and is said to be traveling eastward into Alabama. Senator Smith is pre-paring to urge upon the Senater than the side, two from the Republicans, and one from the Progressives, according to what was said to-day at the Capitol. It is quite likely that Representative Garrett, of Tennessee, will be made chalrman, although there is a made chalrman, although the Carlin or Hay go on the committee, either lin or Hay go on the committee, either may be chairman.

Gossip to-day indicates that Mr. Hay is most likely to be asked to serve. During debate on the resolution in the House a day or two ago, Mr. Hay was most pronounced in his stand not only for a board fifty miles wide, it is believed. The thorough investigation into the Mulgrowing of cotton in that zone would be prohibited, but the farmers could raise any other crops.

The thorough investigation in the also insisted upon the investigation being made at once, in order that the integrity of the country much he sustained. raise any other crops.

Senator Smith's plan is to have the Federal government compensate the farmers in this zone for not planting cotton. He is investigating the action of the Federal government in stampout vellow fever in Louisiana and should be done outself. should be done quickly.

It is recognized that this is not a

position which any one is seeking. duty of delving into the affairs of the various House members is not likely tor Kern, of Indiana, the Democratic leader, arill won his approval of a feasible plan to accomplish the desired end.

Serious Stabbing Affair.

Saturday afternoon Arthur Faison, a colored farmer of Prince George County, while Parham was trying to prevent Faison from getting into trouble. The cutting occurred in a store on Halifax Street. No report was made to the police. This morning Parham's inother came to Petersburg, and find to the police. This morning Parham's inother came to Petersburg, and find to the police, and fearing that he was seriously injured, swore out a warrant for the arrest of Faison.

It is learned that the stab wound punctured the intestines of Parham, and his condition is regarded as very serious. The Prince George authorities have been notified of the warrant, and Faison will be arrested.
